1. Name (please print): ________________________________

2. Prerequisites (Math 130 with a B or higher in the previous semester; or Math 140 credits or placement; or permission of the instructor):

   Math 130 (Precalculus)
   Semester: ____________  Instructor: ____________  Grade: ____________

   Math 140 (Calculus I)
   Semester: ____________  Instructor: ____________  Grade: ____________

   Placement Exam
   Semester: ____________  Grade: ____________

If you have not taken these at UMB, you must explain below how you know the relevant material.

3. Your computer competency (1-not at all competent; 5-highly competent): ____________

4. Your programming competency (1-not at all competent; 5-highly competent): ____________

5. Do you have 1-2 hours every day to work on this course? ____________

6. Other obligations:
   This is a very demanding course that requires a significant time commitment for most students. I have had students who did very poorly in the course because they had too many other obligations. If you fall behind in this course, you will not be able to catch up.

   What other courses (CS or otherwise) are you taking this semester?
   __________________________
   __________________________
   __________________________

   How many hours per week do you work at an off-campus or on-campus job? ____________

7. Collaboration policy:
   Read the handout “Collaboration Policy”, available at https://www.swamiiyer.net/cs110/cs110_collaboration.pdf. This is extremely important. Unacceptable forms of collaboration constitute plagiarism and will result in an F for the course and a formal letter sent to the disciplinary committee. Regrettably, this has happened quite frequently and is always extremely unpleasant.

   Sign here when you have read the handout: ________________________________
